

## **Press release**

### **4th International scientific-practical conference “Simulation and Complex Modelling of Marine Equipment and Maritime Transportation Systems” (SCM MEMTS-2017)**

On June 28, the 4th International scientific-practical conference “Simulation and Complex Modelling of Marine Equipment and Maritime Transportation Systems” (SCM MEMTS-2017) was held in St. Petersburg (LenExpo exhibition complex, pavilion 7, conference hall 7.2). The conference was organised within the framework of the International Maritime Defence Show (IMDS 2017) and was an official event of the Show.

The conference was set up by the JSC “Shipbuilding & Shiprepair Technology Center”, St.-Petersburg Institute for Informatics and Automation of the Russian Academy of Sciences, and Noncommercial Partnership National Simulation Society. Latvian Simulation Society (LSS) acted as an international co-organiser of the conference.

Financial support for the conference was provided by the Committee for Industrial Policy and Innovations of the Government of St. Petersburg. JSC “Shipbuilding & Shiprepair Technology Center” and Noncommercial Partnership National Simulation Society acted as sponsors of the conference.

Themes of the conference had a focus on the following areas of maritime matters and activities:

- Designing, construction and operation of ships, vessels, and marine equipment;
- Designing, manufacturing, and operation of marine equipment and armament;
- Maritime transportation systems, sea and river cargo carriage, logistics;
- Shipbuilding and ship-repair production and port enterprises and facilities.

Authors of papers and the audience of the conference represented 45 organisations, enterprises, companies, and higher educational institutions from Russia, Germany, Latvia, Belarus, and Bangladesh. A collection of conference papers was published prior to the opening of the conference.

The conference program included 20 panel papers and 10 at-booth presentations. Conference materials can be found at webpage [www.simulation.su](http://www.simulation.su).
